Rational Cure for Eczema. No More Dosing the Stomach—Cure the Skin Through the Skin.

When you have a scratch on your hand you wash it out and cleanse it and then the skin cures itself. You do not take blood medicine to cure a festered wound.

The best skin specialists today are agreed that the only way to cure the skin is through the skin.

The fact that eczema is a skin disease and not a blood disease is evident from statistics which show that nearly all eczema sufferers are perfectly healthy in all other ways except as to their skin.

If the eczema patients were really suffering from an inward malady, the entire body and not only the skin would be diseased.

You can prove immediately the relief of a true skin cure by using oil of wintergreen as compounded in D. D. D. Prescription.

This liquid attacks the disease germs, numbing them while building up the healthy tissue of the skin. We have now handled this meritorious and thoroughly scientific remedy for so long and have seen its reliable result so many times that we freely express our confidence.

## Lurchin &amp; Lurchin's Fall Opening

By MELVIN WILLIAMS.

Last spring, the jewelry house of LURCHIN & LURCHIN asked me to look into their affairs and see what I could do to assist them in obtaining new business from the people of St. Johnsbury and vicinity.

I did so, gladly.

I found that they were in a position to do a much larger business, that they had a reputation second to that of no house in the State of Vermont, that they were ambitious young men who intended to stay in St. Johnsbury and build up a tremendous business in high-grade jewelry so that the people in that city and adjoining towns and cities would feel perfectly safe in trading with them rather than sending to Boston and New York for their goods.

I knew that the right kind of a story, put honestly and plainly before the people in this vicinity would result in added business for LURCHIN & LURCHIN. It takes a large amount of good advertising to sell any kind of goods. The advertising which sells poor goods is of no value to the man who advertises, after he has sold his goods.

Advertising which sells honest goods for a reasonable profit has done double duty. It has not only made the first sale but it has put the customer who bought the goods into a better mood with regard to the house.

Honest goods are the best advertisement that a house can use, but honest goods will lay on the shelves, indefinitely, unless the right kind of advertising is used to move them.

This week, I am simply making an announcement to let the people in St. Johnsbury know that LURCHIN & LURCHIN have stocked their store for the Fall trade. They have a thorough knowledge of what is up-to-date in jewelry.

They know every new style of silverware, glassware, brooches, novelties, watches, engraving and all those necessary details that make one jewelry house superior to another.

They did a enormous business last Spring. I pride myself that I was somewhat responsible for their increase in business.

It was with considerable pleasure that I took hold of their advertising, as I knew that the results would not only be immediately beneficial but the goods bought would assist in developing the business along the lines in which LURCHIN & LURCHIN are entitled to go.

There is no doubt in the mind of any one in St. Johnsbury or surrounding cities that LURCHIN & LURCHIN are entitled to an inspection of their handsome store and stock before purchasing any jewelry goods in this district.

Every courtesy will be extended to those who are contemplating buying wedding rings, engagement rings, watches, sterling silverware, pins and neckwear, novelties for the football games, or any of those numerous articles of tableware which make Thanksgiving the one joyous season of the year for thousands of Vermont families.

If you are going to visit the old folks this Thanksgiving, it would be an extremely delicate idea for you to anticipate Christmas a month and take some nice article of silverware or tableware home with you when you go.

LURCHIN & LURCHIN will see that the goods are properly engraved and I would suggest calling on them at once in order that everything will be ready for you when you leave for home on Thanksgiving.

To those who have watches that are not giving perfect satisfaction, I wish to call attention to the fact that LURCHIN & LURCHIN are the Official Watch Inspectors of the Boston & Maine & St. J. & L. C. Railroads.

If they are good enough to keep the watches of the railroad men running correctly, then they are surely the right people for you to entrust your watch for repairs, adjustment or cleaning.

Next week, I will go into further details about some of the special Fall bargains in jewelry which this fast growing house in Vermont has in stock for their thousands of patrons.
